

HALLSTONE®

FOR TRADE

Product Specification Sheet

Hallstone Turf

Versatile turf, suitable for the majority of landscaping projects from commercial to residential. Retains its 'just-harvested' freshness, for up to three times longer than normal, with our **unique ProFresh® technology**.

Specifications

Roll size	Each roll covers approximately 1 m ² when harvested.
Dimensions	<ul style="list-style-type: none">• Typical roll dimensions when harvested: 610mm width x 1640mm length.• Cut to a depth of approximately: 12.5mm height (24" x 64.5" x 0.5").
Approx. roll weight	15kg – 20kg dependent on saturation.
Seed mix	Blend of ryegrass and fescue cultivars.
Tolerances	<ul style="list-style-type: none">• Drought tolerant.• Moderate shade tolerance.
Performance	<ul style="list-style-type: none">• Our unique ProFresh® system and advanced harvesting methods extend the 'shelf-life' of the turf, once harvested.• Multi-purpose – can be used for any landscaping or garden project.• Ryegrass / fescue seed mix gives excellent appearance and performance.• Easy to lay and handle.• Easy to maintain throughout the year.• Fast-rooting, making it very effective at establishing in its new location.
Further information	<ul style="list-style-type: none">• Can be laid at any time of year, except onto frozen ground.• Turf must be rolled out immediately in spring / summer and within 24 hours in autumn / winter.• We make strenuous efforts to minimise the existence of Annual Meadow Grass (AMG) within our turf, however, under certain circumstances some rolls may have a higher content than others. AMG may become more evident in a lawn dependent on the seasons, onsite growing conditions and maintenance employed.• May contain Oxygrid™ degradable net.

A Material Safety Data Sheet (MSDS) is available for this product, on request. Please email info@hallstone.co.uk
